

Capability Statement

Dunu Tech, LLC (“DunuTech”) is a leading cybersecurity and risk management solution provider, bringing together the brightest minds to confront the world’s most formidable challenges for federal government agencies, other public sector entities, and the private sector. Our core objective is to help organizations protect their information systems from threats that could disrupt operations, compromise assets, or undermine the confidentiality, integrity, or availability of processed, stored, or transmitted data.

DunuTech provides the expertise and training necessary to ensure compliance with applicable laws, executive orders, directives, and regulations governing the acquisition, development and deployment of systems throughout the enterprise consistent with standards, guidelines and best practices, such as provided in, NIST SP 800-53 rev. 5, NIST SP 800-39, NIST SP 800-37, NIST SP 800-30, NIST SP 800-161 rev. 1, NIST SP 800-171, NIST SP 800-34, NIST SP 800-60, NISTIR 8286, FIPS 199, FIPS 200, OMB Circular A-123, OMB Circular A-130, NIST Cybersecurity Framework (CSF), CIS Critical Security Controls (CIS Controls), ISO 27001 and 31000, etc.

What Makes DunuTech Different

We distinguish ourselves from competitors in the cybersecurity and risk management landscape through the following core differentiators

Comprehensive Solutions

Our service offering is diverse and comprehensive, addressing various aspects of cybersecurity and risk management.

Commitment To Innovation

We invest significantly in research to ensure we’re offering our clients the most advanced and effective solutions.

Deep Expertise

With 20+ years of government and industry experience, our seasoned leaders deliver cutting-edge solutions backed by in-depth knowledge and understanding of the technological, strategic, and regulatory aspects of cybersecurity.

Customized Approach

Our services are customized to meet the individual needs of each client, ensuring that their cybersecurity and risk management strategies align perfectly with their business goals and risk tolerance.

National Security Expertise

We offer unique expertise in managing risks to national security, helping organizations navigate complex regulations.

Core Competencies

RISK MANAGEMENT

Our risk management services are tailored to your unique needs, including Enterprise Risk Management (ERM), Cybersecurity Risk Management (Agency-wide level and System level), and Cyber Supply Chain Risk Management (C-SCRM).

CYBERSECURITY AND RISK MANAGEMENT STRATEGIES

At DunuTech, we aid your organization in devising dynamic plans to protect your assets and reduce cybersecurity risks for ongoing relevance and resilience. We craft cybersecurity and risk management strategies and multi-year roadmaps that align with your business priorities to help you meet your goals.

EDUCATION & AWARENESS

Understanding that employees are often the primary targets for cyber threats, we offer comprehensive cyber risk management education and awareness training programs, fostering a cyber-aware culture within your organization.

BUSINESS RESILIENCE

We assist your organization in devising robust strategies for a swift and efficient recovery from a variety of operational disruptions, such as Business Continuity Plans (BCPs), Disaster Recovery Plans (DRPs), and Cyber Incident Response.

COMPLIANCE

With our range of compliance services, your organization can meet its obligations to comply with applicable laws, regulations, executive orders, and directives and effectively protect the security of its information systems and the information that is processed, stored, and transmitted by those systems. Our services align with the requirements of the Federal Information Security Management Act (FISMA) and the Office of Management and Budget (OMB).

RISKS TO NATIONAL SECURITY

DunuTech provides solutions for managing risks to national security essential for organizations dealing with Foreign Ownership, Control, or Influence (FOCI), and the Committee on Foreign Investment in the United States (CFIUS) regulations.
