Capability Statement

Dunu Tech, LLC ("DunuTech") is a leading provider of cybersecurity and risk management solutions. We bring together top talent to address the most complex challenges faced by federal government agencies, public sector organizations, and private enterprises. Our mission is to help organizations safeguard their information systems against threats that could disrupt operations, compromise assets, or undermine the confidentiality, integrity, or availability of critical data.

DunuTech offers expertise and training to ensure compliance with laws, executive orders, directives, and regulations governing the acquisition, development, and deployment of enterprise systems. Our approach aligns with industry standards, guidelines, and best practices, including those established by the National Institute of Standards and Technology (NIST), the International Organization for Standardization (ISO), and the Center for Internet Security (CIS).

What Makes DunuTech Different

DunuTech sets itself apart in the cybersecurity and risk management landscape through the following core differentiators.

Deep Expertise

With over 20 years of experience in government and industry, our leadership team delivers solutions informed by a profound understanding of technology, strategy, and regulatory requirements.

Comprehensive Solutions

Our service offering is diverse and comprehensive, addressing various aspects of cybersecurity and risk management.

Customized Approach

Our services are customized to meet the individual needs of each client, ensuring that their cybersecurity and risk management strategies align perfectly with their business goals and risk tolerance.

Commitment To Innovation

We invest significantly in research to ensure we are offering our clients the most advanced and effective solutions.

National Security Expertise

We offer specialized expertise in managing risks to national security, helping organizations navigate complex regulations.

Core Competencies

Risk Management

Our risk management services are tailored to your organization's specific needs, addressing Enterprise Risk Management (ERM), Cybersecurity Risk Management, and Cyber Supply Chain Risk Management (C-SCRM)/Third-Party Risk Management. We provide comprehensive solutions to identify, assess, and address risks across all levels of your organization.

Cybersecurity And Risk Management Strategies & Policies

DunuTech helps organizations develop proactive and adaptive cybersecurity and risk management strategies and policies. We guide clients in establishing comprehensive frameworks, aligned with industry best practices (NIST, ISO, CIS etc.) and tailored to their unique mission and operational needs, to protect their assets, reduce risk, and ensure resilience against evolving cyber threats.

Cybersecurity Gap Analysis

DunuTech conducts in-depth assessments to uncover vulnerabilities in your cybersecurity posture. We create detailed Plans of Action and Milestones (POAMs) and strategic remediation plans to address deficiencies, enhance security, and ensure compliance with relevant standards and frameworks.

Business Resilience

We assist your organization in devising robust strategies for a swift and efficient recovery from a variety of operational disruptions, such as Business Continuity Plans (BCPs), Disaster Recovery Plans (DRPs), and Incident Response Plans.

Compliance And Audit Readiness

DunuTech helps organizations achieve and maintain compliance with a broad range of federal, regulatory, and industry cybersecurity requirements. Our compliance and audit readiness services encompass frameworks such as the Federal Information Security Modernization Act (FISMA), the Cybersecurity Maturity Model Certification (CMMC), and the Federal Risk and Authorization Management Program (FedRAMP), empowering organizations to demonstrate due diligence, strengthen their security posture, and maintain continuous authorization across these environments.

Risks To National Security

DunuTech provides expertise in managing risks to national security, including compliance with Foreign Ownership, Control, or Influence (FOCI) requirements and Committee on Foreign Investment in the United States (CFIUS) regulations. Our solutions enable organizations to navigate complex regulatory environments effectively.

Education & Awareness

Understanding that employees are often the primary targets for cyber threats, we offer comprehensive cyber risk management education and awareness training programs, fostering a cyber-aware culture within your organization.
